

CHICAGO FEARS RIOTOUS POOR

Claims Made That the Suffering Poor Are Becoming Desperate, for Fuel.

TROUBLE FEARED

There Are Hundreds of Carloads of Coal in the Yards That Can Not Yet Be Got At.

(Special By Scripps-McRae.) Chicago, Ill., Jan. 9.—The intense cold weather has caused untold suffering in the poorer portions of the city. A general but unsuccessful attempt has been made to alleviate the sufferings without avail and no coal is to be had.

Police Helpless
The cold snap has called forth many requests for aid from the police department but they have been of no avail. Fear is felt if the weather keeps up and no coal arrives that riots of a serious nature will follow as the poor are desperate.

Coal in the Yards
While there are hundreds of cars of coal in the yards of the railroad companies none of it can be hauled out for some unknown reasons nor can it be delivered to the dealers to whom part of it is consigned.

Beg With Baskets
In all parts of the city the poor may be seen with baskets begging for just a little fuel to keep themselves warm. The charity bureau and the Salvation army are crowded with helpless poor who can not be helped.

Feeling of Despair
At present the sufferers are filled with despair but it is feared that ere long this will give way to one of desperation and then the little coal in the yards will be seized upon by the mobs and used up. There will be a special meeting of the charities this afternoon to discuss the situation.

ANNIVERSARY FOR ENDEAVOR SOCIETY

February Second Will Be Observed as Christian Endeavor Day Throughout the World.

(Special By Scripps-McRae.) Boston, Mass., Jan. 9.—February 2 marks the twenty-second anniversary of the formation of the first Christian Endeavor society. The day will be celebrated by nearly 4,000,000 young people all over the world by various services of a most interesting character. The following message from President Roosevelt, to be published tomorrow in the Christian Endeavor World, was written for Christian Endeavor day, to be read to the societies:

"White House, Washington.—Young People's Societies of Christian Endeavor: I greet you and wish you well. Your body stands prominent among the organizations which strive toward a realization of international and international Christian fellowship, as well as those which stand for ideals of true citizenship. That is, for the cultivation, not alone of a high standard of civic and social righteousness, but of the strength, courage and common sense, necessary for living up to such a standard. With all good wishes, THEODORE ROOSEVELT."

WISCONSIN COLONY IS BADLY PUZZLED

By a Mix-Up Report, Sent a Washington Paper by a Poorly Informed Correspondent.

(Special To The Gazette.) Madison, Wis., Jan. 9.—Somebody with a vague understanding of the caucus methods of the Wisconsin legislature sent a dispatch to the Washington Post, which appeared in that paper this morning, saying that Chairman Bryant of the Republican state central committee had called the Republican senatorial caucus for next Tuesday night, and that some unlooked for opposition to the reelection of Senator Spooner had developed.

The dispatch in question must have caused excitement in the Wisconsin colony at the national capitol, as several telegrams were received here during the day asking for further information regarding the significance of the early caucuses.

Evidently the author of The Post's dispatch got a trifle mixed over the announcement that Chairman Bryant would call the senate and assembly caucuses on legislative organization for Tuesday night, the eve of the opening of the session. The state central committee chairman has nothing to do with the call for the senatorial caucus, which always is held after organization has been perfected, and is called by the joint republican caucuses committee of the two houses. In the absence of any qualified authority prior to the organization of the legislature, custom decrees that the party chairman shall issue the call for the caucuses to nominate candidates for president pro tem of the senate, speaker of the assembly and other officers of both houses.

GRAND REVIEW OF TROOPS IN INDIA

Brilliant Showing Made by 30,000 British and Native Soldiers Under Lord Kitchener.

Delhi, India, Jan. 9.—The review today by the viceroy of India, Lord Curzon of Kedleston, of 30,000 British and native troops led by Lord Kitchener, was the last important event of the coronation durbars.

The viceroy, the duke of Connaught and the grand duke of Hesse, surrounded by a brilliant staff, took up their positions at the saluting point between the grand stands. From every side an immense multitude of Europeans and natives watched the march past and cheered the favorite regiments. Lady Curzon and the duchess of Connaught witnessed the review from carriages.

The scene was not less brilliant in coloring than the preceding events, and it equalled them in picturesqueness. There was a particularly effective maneuver after the passing of the horse artillery, the cavalry, the field batteries and the infantry in the order named. The cavalry in line of regiments, followed by the artillery, galloped past again and formed half a mile in front of the grand stand and from this position charged down in a long line to within a short distance of the saluting point.

Of all the soldiers reviewed today none made a better impression than the native volunteers, which were led by the princes magnificently uniformed and horsed. The imperial service corps, composed of natives which saw service in China, excited great admiration and was given a tremendous reception.

MEN WERE CLUBBED WITH RIFLE BUTTS

Native Soldier Tells Story of the Killing of Guides in the Philippines.

Manila, Jan. 8.—At the trial by court-martial today Major Edwin F. Glenn of the Fifth Infantry, who is charged with killing seven prisoners of war in Samar last January, Louis E. Caulfield, the second lieutenant who was in command of the detachment which killed the native guides in question, testified that their killing did not result from the orders issued by Major Glenn. The witness said that he did not see the killing. A native sergeant said that the first four guides had been executed by the order of Ramos, a scout, because they failed to guide the column to the enemy. This witness said the guides were made to kneel and were advised to repent of their sins. A native soldier was stationed behind each kneeling man, and at the word of command the soldiers clubbed the guides with their rifle butts and then bayoneted them.

SHERIFF SAYS MOBS PEACEABLE

The Statement Made by a Luzerne County Deputy Before the Coal Commission Today.

ONE ARREST MADE

He Had Witnessed Thirty-Six Riots, But During All That Time Saw But One Arrest.

(Special By Scripps-McRae.) Philadelphia, Jan. 9.—At this morning's session of the coal commission it was shown that while the striking miners were disorderly in their gatherings they were not lawless and dispersed when told to do so by the officers of the law.

Deputy's Story
Deputy Sheriff Lawrence Jenkins, a deputy of Luzerne county again took the stand. The whole of his evidence tended to show that the miners while they met in crowds always were orderly when told to disperse by the police.

Many Disturbances
He testified that he had seen thirty-five disturbances and that with the exception of one case he had always seen them leave when told to and only once had been forced to make an arrest of a striker.

HAWAII RESENTS SENATE'S ACTION

Treatment of Pacific Island Possession Arouses Resentment, and Protests Are Made.

Honolulu, Jan. 9.—The Chamber of Commerce and other civic bodies have called the chairman of the senate insular committee strongly protesting against the report of the senate committee in the matter of Molokai National Laretto. The recommendation of the senate committee that the American land laws apply to the Hawaiian islands is also strongly condemned, and a protest has been sent to Washington.

SERVE HORSE MEAT AT UNIQUE DINNER

Remarkable Banquet Given by a German Society for Prevention of Cruelty to Animals.

Berlin, Jan. 9.—Six hundred persons sat down tonight to the most remarkable banquet ever given in Berlin. The dishes consisted entirely of horse meat served in various forms. The Society for the Prevention of Cruelty to Animals gave the dinner for the purpose of demonstrating the nourishing palatable qualities of horse meat. The presiding officer of the society was Privy Councillor von Seefeld. Many prominent members of the reichstag and of the city council were present at the banquet.

BARCELONA IS THE SCENE OF RIOTING

Striking Carmen Clash with the Police and Several Bombs Are Discovered.

Barcelona, Spain, Jan. 9.—The carmen's strike for higher wages is resulting in serious collisions with the police. Revolvers were used in the streets yesterday, strikers threw petroleum on the premises of the Northern railroad with the intention of setting fire to them, and hidden bombs were discovered near the city leading to the belief that dynamiting was contemplated. The police have been largely re-enforced, and special orders have been promulgated for the civil guard to be in readiness for action.

MOB STARTS RIOT ON A RACE COURSE

Troops Called Out at Marseilles, France, to Quell Trouble Over Starter's Decision.

Marseilles, Jan. 9.—Troops had to be called on today to disperse a mob at the race course. In one race a bad start was effected and four horses were left at the post, whereupon the angry public broke down the barriers, invaded the course, demanding the money bet by the Paris mutual system, and committed serious depredations. In a subsequent race the starter had to be protected by police and soldiers.

Rome, Jan. 9.—The congregation of the propaganda is studying a new division of the archdiocese of Dubuque, making it into three dioceses. It was made into two, by creating the Sioux City diocese, since the administration of Archbishop Keane, but it is considered still to be too large.

GERMANY READY TO BUY CANAL RIGHTS

Kaiser Is Reported to Have Offered \$40,000,000 for the French Company's Concession.

London, Jan. 9.—The Washington correspondent of the Daily News states, on what he claims in unquestionable authority, that the Panama Canal company has received a German offer to buy for \$40,000,000 all the company's rights and concessions if the United States does not exercise its option with expires on March 4.

The correspondent says that he further learns that the German government has offered to buy Colombia's share in the Panama Canal company, agreeing to take them at par in full liquidation of all German claims against Colombia.

The German view of the right to build the canal without violating the Monroe doctrine is that the Colombian constitution is not alienated nor the sovereignty thereof transferred to a foreign government. Therefore, if German capital builds the canal, neither Germany nor individual Germans acquire sovereignty in Colombia or perpetual occupation of Colombian territory.

Furthermore the United States, is not opposing the French company in building the canal, established a precedent that such building is not regarded as a violation of the Monroe doctrine, for which reason the United States would have no justification in interfering with the Germans completing the French company's work.

BRITISH AROUSED BY CZAR'S ACTION

London Resents the Opening of the Dardanelles to Russian Torpedo Boats.

London, Jan. 9.—The complications arising out of the protest of Great Britain against the passage of Russian torpedo boat destroyers without guns through the Dardanelles is arousing interest in various quarters. Thomas Gibson Bowles, M. P., in a letter to the Times this morning, demands full and prompt information from the government in regard to its action in this matter. The foreign office, however, is maintaining the greatest secrecy and has so far made no statement on the subject.

Telegrams from Rome says the incident is regarded as important in view of the complications in the Balkans and an insurrection is expected to begin in Macedonia in March.

The opinion in Paris is that Turkey has full right to exercise her own discretion in making such an exception to the treaty provisions as to permit Russian torpedo boats to pass through the Dardanelles.

STATUTE CLUB TAKES A HAND

Committee of Young Lawyers at Work Looking Up Evidence Against Officials.

REPORTS WANTED

Committee Investigating the Books Fail To Find Street Commissioner Frederick's Yearly Report.

The Statute Club which is composed of the young lawyers of the city is the latest organization to take up the discussion of city affairs and dig into the reports of the council and the reports of the city officers.

The street commissioner is the latest subject of discussion. Members of the Statute club have been pouring over the books and reports at the city clerk's office to find a report from Street Commissioner Fredericks.

Statute Requirements
Section 26 of chapter 3 of the city charter defining the duties of the street commissioner and his annual report is as follows:

Section 26. The maximum price to be paid for employees and teams shall be fixed by the council, but the said commissioner shall have the selection and control of the employees and teams so used. It shall also be the duty of said commissioner to make to the common council an annual report of his doings, or oftener, if required by them, giving in detail where and what work has been done or performed, where and by whom performed, the amount by him certified to the respective persons who perform the work, furnish teams, materials, tools and implements, together with such other information as the said council may direct or demand; said respective reports shall have annexed thereto an affidavit, signed by and sworn to by said street commissioner before some person authorized to administer oaths, stating that said reports are in substantial and detail true, and for any false swearing in connection with said reports by said commissioner he shall be deemed guilty of perjury under the laws of this state.

Showing of Books
From investigation of the city clerk's books the committee appointed by the Statute club have come to the conclusion that Street Commissioner Fredericks has not complied with any of the conditions of this section but has violated all of them. He has not made an annual report and no one knows what he has paid for teams and men, perhaps outside the highway committee and they have not demanded a report from the commissioner, and have allowed the matter to slide along.

Tailman At Work
Stanley D. Tallman has been making an investigation of the mayor and his researches have progressed far enough to make the committee believe that the only proper course is to ask for a writ of mandamus, compelling Street Commissioner Fredericks to file a report in accordance with Section 26 of Chapter 3 of the revised city charter.

Reform Fever
The reform fever has struck all classes of citizens alike and a general upheaval is predicted at the next election if the popular feeling does not take a more decided stand before that time.

Invitation to the Crown Princesses to Return to Austria Will Be Renewed.

Dresden, Saxony, Jan. 9.—Archduke Joseph Ferdinand the younger brother of the Crown Princess of Saxony, is going to pay a second visit to his sister at Geneva. This is interpreted to mean that Emperor Francis Joseph is renewing his attempt to induce the crown princess to break off her relations with Giron and take up a residence in Austria.

BRIQUETTES USED WITH GOOD RESULT

Substitute for Anthracite Is Used on Soo Road, and Proves a Success.

(Special By Scripps-McRae.) St. Paul, Minn., Jan. 9.—The practical test of lignite briquettes for railroad purposes made today by the Soo road was highly successful and eminently satisfactory to those interested. A train of eight cars was drawn up, a heavy grade three miles long by an engine fed with lignite briquettes, one third of the quantity of soft coal which would be required being used, and the steam pressure of the engine did not fall below 160. This result was a surprise to engineers and a matter of general gratification. The briquettes are made by a secret process under the direction of Dr. R. J. Schimper of St. Paul who perfected the formula. The process costs \$1.25 a ton.

Alleged Bank Robbers Held.
Galesburg, Ill., Jan. 8.—Eddie Quinn and Edward Raymond, charged with complicity in the Abingdon bank robbery, Jan. 3, were put under \$7,000 bonds and held.

STUDY METHODS WILL BE TESTED

SUP'T BUELL IS A MEMBER OF
STATE COMMITTEE.

WILL INVESTIGATE SCHOOLS

Value of Different Methods Will Be
Determined by Series of Com-
parative Tests.

Supt. H. C. Buell has been appointed on a committee of superintendents who will investigate existing conditions in the public schools of the state and the comparative value of their methods. The appointment of this committee is the direct result of the annual convention of the Wisconsin State Teachers' Association recently held at Milwaukee.

At this convention the idea was advanced that the investigation of the schools and their merit is left too completely to the university and other higher institutions of learning. The results are far from satisfactory because in the majority of instances the tests are carried on under abnormal conditions.

To Investigate
It was decided at the convention, therefore, that it was desirable to test the work of the various schools in the state as it is done normally from day to day. It was deemed that such an investigation could best be carried on by the superintendents themselves and a committee was appointed. This committee includes Prof. C. E. Patzer, of the Milwaukee Normal school and Supts. Fairchild, Milwaukee, C. F. Vlebahn, Watertown, R. B. Dudgeon, Madison; H. C. Terry, Waukesha; and H. C. Buell, Janesville.

In Three Studies
Arithmetic, spelling and penmanship are the branches in which the investigation will be started. Various methods of teaching these studies are employed in the schools and while each method is declared best by its followers, the results of the several systems have never been compared. For instance some educators claim that vertical writing is swifter but not so legible as the slanted writing, others claim that it is more legible but not so swift, still others say it has both good qualities while there are those who assert that it has neither.

There is the same diversity of opinion over the best way to teaching spelling and arithmetic. In some schools number work is not introduced until the third grade, the claim being made that the pupils learn as much in one year as is learned in three years where the pupils begin the work in the first grade.

Comparative Tests
The plan of the committee is to conduct a series of tests which will show what methods give the best results. All the schools of the state are to be subjected to the same tests and the value of the methods employed will be determined by comparing the work done in these tests. Supt. H. C. Buell has been given charge of conducting the work in arithmetic, spelling has been entrusted to Supt. Terry, of Waukesha, and Prof. Dudgeon, of Madison, will investigate penmanship.

Committee to Meet
A meeting of the entire committee will be held in Waukesha, Saturday, Jan. 31 to complete plans for carrying on the work.

ALDERMAN'S BLUFF WAS NOT GOOD

Both He and a Policeman Are Depicted
as Foolish by a Beloit
Paper.

"Just because the electric road people happen to be a bit new in their business is no sign that they are willing to be imposed upon by anyone, as a couple of Janesville city officials found out to their regret a day or two ago.

The Alderman
"One was an alderman who had imbibed more than was good for him at Rockford and boarded an electric car to return to his home. When the conductor called upon him for his fare he mumbled something about being an alderman and consequently not liable for a fare. The conductor could not see it this way and told the alderman he would have to pay his fare or get off. The drunken official from the county seat was given a short time to think it over. He remained inflexible, however, and so when still a considerable distance from Beloit the obtuse gentleman was dumped off the car and left by the wayside.

A Policeman?

A member of the Janesville police force later tried the same game of riding on his face, so to speak, and after getting on the car at Beloit he was carried as far as Willow Springs park and then put off. He trudged back to Beloit through the snow and later boarded a passenger train for home."—Beloit Free Press.

If you love your wife, make it easy for her to get breakfast. Take home Mrs. Austin's Pancake Flour.

Man And Wife Wanted
Man and wife wanted for institution. board, lodging and washing. Wages to commence, four hundred and thirty dollars, (\$430); increasing to five hundred and ten (\$510) per year. Three good references required. Man must be a good all around farmer and tobacco raiser. Wife a good plain cook. Permanent position to the right parties. Apply "Superintendent," Drawer E. UNION LABOR IS IN FESTIVE MOOD

Ladies of the Union Label League
Gave an Entertainment Last
Evening.

Organized labor's cause was championed on Thursday evening by the women of the International Union Label League, who, with appropriate ceremonies installed their new officers. The installing officer was Miss Ella Funk, who was commissioned for that purpose by National President Mrs. Mary Bretall of Washington.

The officers who were installed were the following:
President—Mrs. McKelgue,
First Vice President—Mrs. Gibbs,
Second Vice President—Mrs. Cary,
Secretary—Mrs. Klenow,
Treasurer—Mrs. Rehfeld,
Sergeant at Arms—Miss Hartall,
Doorkeeper—Mrs. Marshall.

The following program accompanied the exercises, which began shortly after eight o'clock, before a large audience:

Selection—Baldwin & Rehfeld's orchestra.

Recitation, "A Kiss"—Elizabeth Klenow.

Duet—Miss Baker and Miss Funk.

Recitation, "A Holiday Convention," May McKelgue, Oda McKelgue, Clara Rehfeld, and Gertrude Rehfeld.

Remarks—Rev. Robert C. Denison.

Recitation, "The Label"—Roy Rehfeld.

Mrs. Will Baker acted as pianist and played the accompanying music for the ceremonial.

About fifty or sixty members of the Beloit Machinists' Union were in attendance. They had come to this city for a smoker with the local, having chartered a special on the Northwestern road. Having finished their social as guests of the local machinists, who were out in force, they all adjourned to the dance given by the W. I. U. L., following the public ceremony of installation.

Dancing began at about nine-thirty and continued until an early hour of the morning. Baldwin and Rehfeld furnished the music.

Arrangements for the evening are in the hands of a joint committee which includes five members from each society. The representatives from the Relief Corps are Mesdames Victoria Potter, Mary Dunwiddie, A. M. Glen and Al. Watson and Miss Ella Willis while the members from the Post are E. B. Helmstreet, Martin Halverson, E. O. Kimberley, S. C. Burnham and A. F. Lee.

M. W. A. and R. N. A.

On next Wednesday evening the Modern Woodmen and Royal Neighbors will hold their installation at West Side Odd Fellows hall, beginning at 7:30 o'clock. C. M. Brooks, of Avalon, formerly of this city, will be present to serve as installing officer for the Woodmen and the ceremonies will be followed by a banquet and dance.

A. O. U. W. and D. of H.

The United Workmen and the Degree of Honor will hold their joint installation at East Side Odd Fellows hall Friday evening, Jan. 23. Committees are already planning for the occasion, the concluding feature of which will be a dance.

Good cold weather is billed for this section of the country for some days yet. Weather men who are paid by the government to make their reports claim that Wisconsin is in for a good cold spell from now on. For five days at least, they say. They do not say that the thermometers will drop below zero but they do claim that the weather will be very cold and that the air will not be any warmer until the effects of the blizzard that is on its wave east is over and the warm south winds can reach us again.

Little Snow

Snow they do not think will fall but they look for flurries in different parts of the state at almost any time. The blizzard that swept through the Dakotas and at LaCrosse and Superior seems to have jumped over into Michigan and swept along the entire lake coast. It is now in New York state and much suffering is felt.

Not Zero

While the weather was bitter this morning, good, conservative thermometers placed where the wind did not get at them did not go below ten above and at noon the mercury stood at fifteen above and was rising lightly.

Arrested For Non-Support: George Hurd of Milton Junction at one time employed by D. Ryan was arrested yesterday afternoon and taken to Whitewater for the non-support of his wife and child.

His two companions saw him fall and leaped from the cars. Before they could reach his body the last spark of life had been crushed out. The body was taken to the morgue. His lodging place was easily found, but no one seemed to know where his home was. Finally a telegraph message was sent to the local police asking for information. The fact that a Janesville boy of that name had been working in Milwaukee was easily ascertained, and the parents, who live on Washington street, were notified.

Arrested For Non-Support: George Hurd of Milton Junction at one time employed by D. Ryan was arrested yesterday afternoon and taken to Whitewater for the non-support of his wife and child.

His two companions saw him fall and leaped from the cars. Before they could reach his body the last spark of life had been crushed out. The body was taken to the morgue. His lodging place was easily found, but no one seemed to know where his home was. Finally a telegraph message was sent to the local police asking for information. The fact that a Janesville boy of that name had been working in Milwaukee was easily ascertained, and the parents, who live on Washington street, were notified.

TO INSTALL IN JOINT SESSION

POPULAR PLAN FOR LODGES AND
THEIR AUXILIARIES.

TO HOLD THREE THIS MONTH

First of the Joint Installations To Be
Held by the G. A. R. and W. R. C.
This Evening.

Joint installations of officers by societies and their auxiliaries are unusually popular this year and at least three of these ceremonies will be held during the present month. There are a number of the lodges of the city which have auxiliary lodges for the women and in many instances the two lodges thus related have decided to unite in the installing of their officers for the coming year and make it an occasion for sociability. Necessarily the installation services will be distinctly separate but they will be witnessed by both lodges and by the families of the lodge members.

The joint installation planned for this month will be W. H. Sargent Post No. 20 G. A. R. and W. H. Sargent W. R. C. No. 21, Florence Camp No. 366 M. W. A. and Crystal Camp No. 132 R. N. A. and by Olive Branch Lodge No. 36 A. O. U. W. and Laurel Lodge No. 2 Degree of Honor.

G. A. R. and W. R. C.

The first of these joint installations will be held by the Grand Army of the Republic and the Women's Relief Corps on Friday evening of this week. The installation will be held at East Side Odd Fellows hall, Post hall not being large enough to accommodate the two societies and their families. The ceremonies will be preceded by a supper, which will be served at 6 o'clock and for which the ladies of the Post and Corps are asked to furnish escalloped potatoes, beans, salads, biscuits, doughnuts or cake.

Arrangements for the evening are in the hands of a joint committee which includes five members from each society. The representatives from the Relief Corps are Mesdames Victoria Potter, Mary Dunwiddie, A. M. Glen and Al. Watson and Miss Ella Willis while the members from the Post are E. B. Helmstreet, Martin Halverson, E. O. Kimberley, S. C. Burnham and A. F. Lee.

M. W. A. and R. N. A.

On next Wednesday evening the Modern Woodmen and Royal Neighbors will hold their installation at West Side Odd Fellows hall, beginning at 7:30 o'clock. C. M. Brooks, of Avalon, formerly of this city, will be present to serve as installing officer for the Woodmen and the ceremonies will be followed by a banquet and dance.

A. O. U. W. and D. of H.

The United Workmen and the Degree of Honor will hold their joint installation at East Side Odd Fellows hall Friday evening, Jan. 23. Committees are already planning for the occasion, the concluding feature of which will be a dance.

Good cold weather is billed for this section of the country for some days yet. Weather men who are paid by the government to make their reports claim that Wisconsin is in for a good cold spell from now on. For five days at least, they say. They do not say that the thermometers will drop below zero but they do claim that the weather will be very cold and that the air will not be any warmer until the effects of the blizzard that is on its wave east is over and the warm south winds can reach us again.

Little Snow

Snow they do not think will fall but they look for flurries in different parts of the state at almost any time. The blizzard that swept through the Dakotas and at LaCrosse and Superior seems to have jumped over into Michigan and swept along the entire lake coast. It is now in New York state and much suffering is felt.

Not Zero

While the weather was bitter this morning, good, conservative thermometers placed where the wind did not get at them did not go below ten above and at noon the mercury stood at fifteen above and was rising lightly.

STATE LAWS ARE NOT ACCEPTABLE

CHICAGO REAL ESTATE MAN POINTS OUT DEFECTS.

HE THINKS TAXATION UNJUST

Mr. Rollins Owns Land in Marinette County, and States Plain Facts.

Plain facts told by a man who is thoroughly acquainted with the situation as it exists cannot fail to have due influence upon the readers. In presenting the following letter from Mr. C. E. Rollins the Gazette feels that it places before them an expert's opinion upon the taxation question and the game laws in the state of Wisconsin as they exist.

Mr. Rollins is a gentleman who is thoroughly acquainted with what he is discussing and writes most feelingly of the thorough uses that the laws of the state place upon the incoming settlers and upon the visitors who seek recreation and rest in our forests in the north. The letter follows:

Dear Sir: Some days since I was talking with friends in regard to various things and it was suggested I write you and perhaps a suggestion that I wanted to make to some one in Wisconsin in regard to taxation might interest your readers.

Owing to the great increase in taxes in Wisconsin and especially in Marinette county, where I am largely interested I find it very hard to induce settlers to go there because taxes on the wild land in Marinette county far exceed the taxes on improved property in the older states where there is a town road on every section line and school houses in plenty. The tax rate in Wisconsin or in the northern part of it is something that should not be tolerated because I believe it is unjust. There is much property in Marinette county that is assessed for double its value, there is more land that is assessed for one-tenth of its value and some escapes taxation altogether.

The tax commissioner through its instructions to county and local assessors for the year 1902 has worked I fear much harm to the interests of the northern part of the state as it kept out a great many good people who would go there and settle. 40 acres of land that can be bought at from \$50.00 to \$60.00 is assessed at from \$80.00 to \$200.00.

Again the moment a man buys 80 acres of land and commences to improve it he is loaded down with assessments and is compelled to pay a tax which he cannot afford to and which he in equity is not entitled to do. There is in my mind no good reason why a man who takes up a small piece of land, puts up a little house and commences to improve his property should have his assessment raised to four times the original value of the land. This not the way to attract good people to the state, who in the course of time become good citizens contributing their share of the tax for the maintenance of law and order and keep up the internal improvements of the state.

But what I want to get at is, and I think you and any other fair-minded man will agree with me, that what is known as mineral, timber and water rights that are reserved by the sellers of land should be assessed and taxed equally with the surface of the land, which is the only thing that is sold. Of course, this does not prevail to any great extent in your immediate vicinity but in many places in Wisconsin you cannot buy land unless the mineral rights are reserved; the lumber companies also reserve all water rights and timber leaving the iller of the soil the burden of paying the taxes while the people owning these rights pay nothing; sometimes these mineral rights are valued so highly that you cannot purchase them for ten times the price paid for the soil. I know of one 40 of land in Marinette county that was bought two years ago for \$50.00, the purchaser at that time supposing that he was purchasing the Fee complete as he got no abstract but the seller was supposed to be a reasonable party. On looking the matter up with in the last few months he found that away back in the early days this piece of land has been disposed of reserving the mineral rights, several transfers had been made. Ignoring this reservation, he had the owner of the mineral rights looked up and found that he said he would not sell his mineral rights at \$20.00 per acre, in fact he would not put a price on it, this at the lowest would place a value of \$800.00 on the mineral rights in this one 40 of land.

The whole northern part of Wisconsin is in the same condition, these mineral rights are held at hundreds of thousands of dollars on which no tax is ever paid.

Is there any good reason why the assessor should not assess the mineral rights on every piece of land that is sold with a reservation of oil kind?

In all these reservations is included the right to enter on, pass over and work in the land for the minerals and also the reservation of land enough for the erection of factory buildings.

You can readily see that a man buying 80 acres of this land with the mineral rights reserved might in a few years have his property so cut up that it would be useless to him for farming purposes and yet he has been paying the taxes for the protection of this other man's property.

I believe it is a matter if agitated would add several million dollars in value to the taxable value of Wisconsin property and thus reduce the expense that is now put on the small holders of land.

I have been very much interested in your articles on the game law and believe that you have taken the right stand. I cannot see how the state of Wisconsin can claim any title in

game that originates in other states or in the state of Wisconsin itself for the very fact that when I buy 160 acres of land of the United States government, they give me a deed for it without any reservations whatever, consequently, any and all things on that land belong to me, the same is true when I buy land of the state of Wisconsin, which has been granted to them by the United States, and when the state of Wisconsin issues to me its patent for its 160 acres of land it parts with all right, title and interest it has in that piece of land, but under the general law it has a right to levy taxes for the purpose of protecting my property, but it has no right to say that the rabbit, deer or partridge that is born on my land and raised there is not my property. It has undoubtedly, a right to regulate the taking of fish or game in public waters or public lands that are owned by the state itself but I doubt very much if it has a right to do so on government land.

The license law enacted by the

CHARMING MUSIC AT OPERA HOUSE

Florodora Company on the Boards of the Myers Grand To-night.

At last we are to have "Florodora." It is here tonight, and if all the good things that have been said about it are true, it will be a most popular production. The librettist is Mr. Owen Hall, who previous to supplying the book of "Florodora," gained prominence as the author of the "Gelsia," "An Artist's Model," and "The Gaiety Girl." His associate, Mr. Leslie Stuart, has long held an authoritative position in England's musical circles. After reading the book, Mr. Stuart was impressed with the possibilities it afforded for giving the oral story a rich musical setting, and he set about supplying the catchy lyrics. "Florodora" is simply filled to overflowing with music of an original

THE BEAUTY SEXTETTE IN "FLORODORA"

state of Wisconsin was to my mind is one of the most ill-advised piece of legislation that could have been done. If you would care to look into the matter carefully you would find that no doubt it has kept on an average of \$500,000.00 in money from being spent in the state each year and in return for this a few licenses to non-residents have been issued while the residents of the state of Wisconsin have been compelled to pay something like \$60,000.00 per year for a privilege which is certainly their own without any fee for license to the state. All of this money I presume has gone to fill the hungry mouths of petty politicians who cannot get a living except by preying on their fellow men, or in other words it is purely "political graft." Again if we concede that there is any equity in the license law the constitution of the United States is violated in making a discrimination between residents and non-residents. Again a man who pays taxes in Wisconsin but resides in Illinois is treated as a non-resident, take my own case for instance, I pay taxes on over 18,000 acres of land in Wisconsin and yet I should want to shoot a deer on my own property the state says I must procure a license.

Coming back to the keeping of money out of the state, before the license law of Wisconsin was enacted thousands of people went there yearly to fish and hunt; many of the people who went there never shot a deer but spent from one to three weeks in trying to do so. I believe that every deer shot by a non-resident in the state of Wisconsin cost that non-resident not less than \$100. The majority of men going there deer hunting were people who went there for the sport and not for the mere killing of the deer. These people paid a money to the railroad, which was disseminated among the employees of the road, they paid money to the boarding housekeeper, hotels, they paid money to the guides who accompanied them, they paid money to the teamsters who drove them over the country, they bought ammunition and supplies of local tradesmen and following the chain out they spent money for all little things needed while on their hunting trip.

For many years I was in a position to be familiar with this class of people and probably would enumerate three hundred different parties who formerly went to Wisconsin and none of them spent less than \$150.00; these same people also went there during the fishing season. It is true that there is no license on fishing at present in Wisconsin, but there is an obnoxious law which prevents you, if you are not a resident of Wisconsin from sending home the fish that you catch but you can bring with you a few fish. These same people refuse to go to Wisconsin for deer fishing or hunting, but now go to Canada, or the other states of the union where they are treated decently, and not subject to oppressive laws and insulting game wardens who do not hesitate to go on the trains and open up the baggage of people who are travelling.

The way that the game law has been administered is a shame and disgrace to the state, it is nothing more nor less than a premium on pot hunting and killing of game out of season. If a man has a political pull he can kill as much game as he pleases at any time of the year and nothing is ever done about it but if he is some poor man, or some non-resident that they can jump on then there is a great hue and cry made about it and a small amount of money taken in for fines goes into the political crib.

I trust that I have not bored you with this long letter but I do hope some one will take up these two questions and ventilate them in good shape.

Your very truly,
C. E. ROLLINS.

and exquisitely entrancing character. The two acts have no less than twenty-four fascinating compositions written for soloists, duets, trios and the concerted numbers, which include of course the famous double sextette, making the play a veritable feast of melody. The most popular gems are "Tell Me, Pretty Maiden," "Galloping," "Under the Shade of the Palms," "I've an Inkling," and "I Want To Be A Military Man," and a host of others that are of such a peculiarly bewitching nature that it is impossible to describe them in print. The splendid double sextette is naturally one of the most attractive musical numbers ever heard on the American stage. "Florodora" will be presented here by a company numbering over seventy persons, and the production both as to costumes and scenic display will be in keeping with all that perfect detail for which Messrs. Fisher and Ryley have become noted.

STRONGEST EVIDENCE OF FAITH
The People's Drug Co. Guarantee That Hyomel Will Cure the Worst Case of Catarrh in Janesville. When one of the most reputable concerns in Janesville guarantees that a medicine will effect a cure or they will return the money, it speaks volumes as to the merit of that remedy. It is in this way that the People's Drug Co. are selling Hyomel, the treatment that has made so many remarkable cures of both acute and chronic cases of catarrh in Janesville and vicinity.

Hyomel is not a pill nor is it a liquid that has to be taken with a tablespoon or wineglass. Just breathe it by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment. It destroys all germ life in the air passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrh germs, there Hyomel will do its work of healing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grow balsamic trees and plants which make the air pure by giving off volative antiseptic fragrance that is healing to the respiratory organs.

Remember that if Hyomel does not cure you, the People's Drug Co. will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season. People's Drug Co.

Milwaukee News: It may be that lemon juice in drinking water is deadly to typhoid germs, but the experiments have not included picnic lemonade.

Oshkosh Northwestern: Coal is \$20 a ton at Nome, but the people there don't care half as much about that as they do the fact that beer costs \$1 a glass.

Kenosha News: It is said that Governor-elect Bally of Kansas, who was elected upon a pre-election pledge that he would marry, now flatly refuses to fulfill the contract. The women of Kansas ought to have known better than to have placed reliance in ante-election political pledges.

Louisville Courier-Journal: In Chicago the are writing it "Monsieur" Mascagn. Still little things like the peculiarities of the Chicagoese language can hardly disturb this genius now, prostrated by his real misfortunes.

Hudson Star-Times: Some men are born great, some achieve greatness and some have greatness thrust upon them. Railroad Commissioner Graham L. Rice has coerced a number of state senators into the last named class, by appending their names to sundry previously nondescript lakes, in the wilds of northern Wisconsin. These fresh water senators, under this new baptism, will undoubtedly be able to keep out of every "alluring form of vice" during the forthcoming session of the legislature.

The Art of Self-Defense.

The popular idea expressed in the phrase, "the art of self-defense," shows the opinion that the chief enemies a man has to defend himself from are visible and external. But the real danger of every man is from minute and often invisible foes. In the air we breathe and the water we drink are countless minute organisms leagued against the health of the body.

The one defense against these enemies is to keep the blood pure. Dr. Pierce's Golden Medical Discovery thoroughly purifies the blood, removing poisonous substances and accretions. When the blood is pure there is no harborage for the germs of disease which find a lodging only when the blood is impure and corrupt.

"I consider your 'Golden Medical Discovery' one of the best medicines on the face of the earth," writes Mr. Wm. Pieter, of Red Oak, Montgomery Co., Iowa. "While in the southwest, three years ago, I got poisoned with poison ivy. The poison settled in my blood and the horrors I suffered cannot be told in words. I thought I would go crazy. I tried different kinds of medicine, tried different doctors, but all the relief they could give me was to make my pocket-book lighter. I then began taking Dr. Pierce's Golden Medical Discovery. Took four bottles without relief. Kept taking it. I took in all ten bottles and got entirely cured."

WISCONSIN WEATHER FORECAST

THE LEAGUE AND POLITICS

The discussion of municipal questions at the meeting of the Social Union club last Tuesday evening, indicated that the Municipal League, recently organized, while non-partisan in character, was expected to take a stand in naming and supporting a city ticket at the coming spring election.

While the vote of the club was not unanimously in favor of such action, Mr. S. C. Cobb was the only gentleman present who gave a reason for not supporting the measure, and his reason was, that he did not believe it possible to bar politics from city government in Janesville.

This statement coming from Mr. Cobb, is worthy of careful consideration. It is made by a man who knows the city thoroughly well, and who is not a stranger to party politics.

A man who believes in good city government, and who has ever been ready to lend his hand and voice in advancing the best interests of the city.

Mr. Cobb realizes, as well as every other man who gives the matter serious thought, that if the Municipal League, or any other new organization, attempts to control the politics of the city, to the extent of putting an independent ticket in the field, that it can only hope for success, after enrolling as active and interested members, a substantial majority of the voters.

A Municipal League with a membership of 100 names, or three times that number, would hardly feel warranted in naming city and ward tickets, and while it might hold the balance of power in an election, this power might result in defeating good men, and electing poor officials.

Chicago and other cities have had the experience with civic federations, and reform clubs of that class. The Janesville league will doubtless purify city government, along the lines in which it is working. It is furnishing valuable information to tax payers, and creating and capitalizing sentiment in favor of demanding business methods on the part of public servants.

The work will have a tendency to encourage the selection of good men for office, but if the league was going into politics as a political organization, with any hope of absorbing the two political parties, it would be necessary for it to hold mass meetings, and in every way possible work to secure the name of every voter in the city who was willing to identify himself with the movement, and actively support it.

This would mean a citizens' ticket, against any opposition that might develop, and if it was strong enough to win, it would mean that every man arrayed against it, would be opposed to clean and wholesome government. If the people are ready for this kind of a movement, and abolish party lines in municipal affairs, they are ready to take a long stride in the right direction.

The Gazette would be glad to see it accomplished, but the paper is frank to admit, that Mr. Cobb's statement expressed a very stubborn truth.

The league is doing good work and it has an opportunity to accomplish much in the way of practical reform, but it will hardly feel warranted in organizing as a political party, until numerically strong enough to develop more than a three cornered fight.

When it enters the political arena to win as an organization, it must have the assurance that it will not be opposed by either the republican or democratic party, and when that time comes the opposition will be a nameless organization, created in the interests of lawlessness.

NEW YORK EXPERIENCE

Gen. Greene the new police commissioner of New York, is supplying, in his methods, the dramatic element which is so necessary in popularizing reform, in a population like that of our metropolis, but which was totally lacking in the administration of his honest and faithful, but uninspiring predecessor, Col. Partridge. The latter did an immense amount of reform work, but of a nature and in a way to attract so little attention that people imagined him to be doing nothing. Gen. Greene makes a few moves which arrest attention by their audacity and suddenness, and the people toss up their hats at once in a fervor of applause.

CALAMITY HOWLERS

One by one, the sons of calamity get tangled up with the octopus and let the prosperity bacillus undermine their heroic principles. The Hon. Jacob Coxey, of the Irregular Army, O., has been a man of corporations and a bloated bond holder for years. Hogg, Towns and Bryan are plethoric of purse. And here is our old greenbacker and populist friend, Gen. James B. Weaver of Iowa, a statesman whose apparently invincible belief in the hunt for happiness has long kept alive our interests in his

fortunes. Alas, he, too, is fallen. According to an esteemed Iowa contemporary, he has gone to Sour Lake, Tex., as president of an oil company. Sour Lake has a name congenial to the old Weaver, but we fear that the new Weaver is destined to be an optimist and perhaps a millionaire.

MARK TWAIN

Mark Twain, in a series of articles in the North American Review, is throwing at Christian Science a remarkable mixture of bouquets and brickbats. On the whole, the bouquets seem to preponderate, and to carry with them a healing balm for the bruises inflicted by the harder missiles. A man is usually not much hurt by being called a fraud if at the same time he is assured that he is making friends faster, and doing more for the happiness of mankind than any other fellow. So the Edwyto may freely endure the showing that he is the dupe of a shrewd, money-making female and that his organization never gave a dollar to the orphan, the widow, or any other object of charity, when it is tactfully admitted that "this new Christianity frees its possessor's life from frets, fears, vexations, bitterness and all sorts of imagination-propagated maladies and pains, and fills his world with sunshine and his heart with gladness." And that the cult is growing so fast that by 1930 it will be "the governing power in the republic."—New York Sun.

PRICE OF COAL

The following is interesting as coming from the Scranton Tribune in the heart of the coal region:

It is easy to complain at the present local price of coal and natural to condemn the operators for raising it, but complaint and condemnation will not warm the household and we doubt very much that it will make any change in the programme. It is a condition, not a theory, that confronts those that have coal to sell as well as those who have to buy coal, and for this condition the operators are not alone responsible. It must be remembered that the strike caused a deficit of 23,000,000 tons in the country's supply and that current production, though pushed as rapidly as the operators and miners can push it, does not begin to equal the current demand. The country is paying the price of the coal strike with which it sympathized and which it helped to support. That the price is grievous is true, but the wholesale construction of a nation's domestic fuel supply is not a light matter how sportively begun.

The practice of economy in the use of coal is now necessary, both as a financial and as a social duty. He who wastes coal injures all who suffer because of the insufficiency of coal. He who stores large quantities of it in his cellar, beyond his current needs, takes just that much away from those whose need of it is far more urgent than his own. Let us all try to practice as much humanity in this matter as possible, and when disposed to discuss other people's greed make sure that our own garments are free of reproach.

The railways complain that their present difficulty is the lack of wheels for their cars. If they want wheels why don't they go to Lincoln, Neb., or Boston, Mass., and they can get all they want and good ones too.

Spain has made up its mind that it must be doing something to again take its place as a fighting power so she is going to shut the thumb screws on Morocco just by way of practice.

Coal operators mean to make up for the time lost last summer and have raised the prices. They will easily clear \$18,000,000 this year on their fifty per cent. raise and the consumer pays the raise too.

If the governor should try and follow all the advice that is being given him as to how to run the ship of state we would have the funniest conglomeration of laws this winter that any state ever had.

It is reported that a Fond du Lac bank clerk contracted small pox from handling infected bills while at work. Some people will never have a chance to get the disease no matter how much they want it.

The latest freak suit is a two thousand dollar one of one New York actress against another for alienation of the affections of a bull terrier. The complaint does not say whether it was a two-legged or a four-legged terrier.

It will be hard work for the man who drinks to keep warm this winter. What with the price of coal staring him in the face there is always a talk of a whiskey famine. Poor toper.

That Danish consul at Louisville finally decided that if the government did not want to let him have his old uniform without paying duty why he will not have it at all.

Mr. Carnegie has again loosened up his purse string with the usual conditions that some one else pay up also. Philadelphia is the gainer this time.

The American invasion of Turkey has now reached the bathtub stage and next think we know we will be importing the towels and soap.

Higher freight rates continue to march hand in hand with the higher wages and its the public who pays the wages after all.

The removal of tax on tea January one was very considerate of the government as it gives those who have sworn off every other beverage but "cold tea" a chance to keep the pledge.

Coal gas has claimed more victims of its deadly fumes. It must be pleasant to live in a district where they have enough coal to cause a fume.

It is said Booker T. Washington is no politician. Well some of his race have been complaining of that for some time past.

It is a wise man who knows enough to stop playing when he has lost all he has and cannot borrow any more from his friends.

The center guard at the zero mark has thus far been able to hold the mercury ball from crossing the line for a touchdown.

That impudent sultan of Bacalah should be well punished for his impudence to the American army officers.

Good little children will remember that Fourth of July is only one hundred and seventy-one days off now.

Americans have bought up the surplus leather of Austria and now it costs money to walk over there.

The sultan of Turkey has broken another treaty. For a sick man the sultan manages to do pretty well.

Still these interesting facts as to the stone crusher come to light day by day.

The railroads are planning to fight the anti-trust bill. That is not good news.

The army reorganization bill has at last passed the house. Now for the senate.

President Castro might resign now while he has something left to resign.

MRS. E. D. EATON TALKS OF CHINA

MISSIONARY MEETING AT THE
CONGREGATIONAL CHURCH.

SUPPER GIVEN FOR GUESTS

Wife of the President of Beloit College Told of Her Visit to the Orient.

Personal reminiscences of China, given in a charming manner by Mrs. E. D. Eaton, of Beloit, made the missionary meeting at the Congregational church Friday afternoon, one of exceptional interest. It was the regular monthly session of the Ladies' Missionary societies of the church and special invitations had been issued to the wives of the pastors and the officers of the missionary societies of the Presbyterian, Methodist and Baptist churches. The result was a large and very interesting meeting.

Mrs. Eaton's talk on China was the chief feature of the afternoon. It was an informal talk, embracing some of her own experiences in the Orient, and was given in a conversational style that was very pleasing. It was especially valuable because she tried as largely as possible to tell things which are not generally known.

Accompanied Deputation
Mrs. Eaton's visit to China was made in 1898 when she accompanied the deputation sent out by the American board of the Congregational church to investigate personally the conditions in China and the work being done by the missionaries. The deputation included Judson Smith and Co. C. A. Hopkins of Boston and President Eaton of Beloit college. Mrs. Hopkins and Mrs. Eaton accompanied the party and they spent six months abroad, four of which were spent in China. Japan was also visited.

Some Inside Glimpses
In her talk to the Janesville ladies, Mrs. Eaton gave them some very definite ideas of the lives of the missionaries in whose homes she visited. She said that the quiet influence of these homes is a great power for the bettering of the conditions for the Chinese women. She told some pitiful incidents of the manner in which the girls and women are treated and explained the prevalence of sore eyes by saying that the babies are carried with their faces upturned to the glaring sun, being carried about on the backs of little girls. In speaking of the sore eyes, Mrs. Eaton told an instance of a child who was very seriously afflicted. One day the missionaries asked him to make way with a cat and later they found him cooking it to eat. He had saved the eyes and swallowed them whole, firmly believing that his own would be cured.

Before Boxer Uprising
The visit of the deputation was made just before the Boxer uprising and the Americans visited in many of the homes which were afterwards destroyed. Mrs. Eaton had with her yesterday, several of the smaller gifts which were presented to her and she told interesting stories about many of them. She also gave a vivid description of the preparations made for a girl's wedding telling how for days preceding the event the bride and two friends lay face downward on the bed mourning her fate.

Other Features
Mrs. J. L. Ford presided at the meeting and interesting papers were given by Mrs. Harriet Jeffris on the history and doctrines of Mormonism and by Mrs. Romanda Reynolds on "The Material We Work Upon." After the meeting the guests of the afternoon were entertained at an appetizing supper, served by the Congregational ladies.

GOLDIN'S CHANCES ARE VERY GOOD

Janesville Man Will Probably Be Elected Chief Clerk of the State Senate.

It is now almost a certainty that Theodore Goldin, clerk of the circuit court of Rock county, will be elected chief clerk of the state senate at its organization. Mr. Goldin has been an avowed candidate for some time past having been urged for the position by his friends and it is probable that by the time the Senate meets and organizes all opposition to him by other republicans will have been dropped and he will be awarded the honor.

Other Candidates
Hy P. Schmidt, late chief clerk of the Secretary of State's office under Mr. Froelich is another candidate who has a small following but friends of Mr. Goldin, according to Milwaukee papers, claim that he is assured of the election when the time comes.

ELECTED OFFICERS OF SUNDAY SCHOOL

List of Those Who Will Have Charge of Work in the First M. E. Church.

Last evening the annual election of officers for the Sunday school of the First M. E. church was held, the meeting convening in the church parlors. The election resulted in the choice of the following officers: Superintendent—Harlin E. Cary. Assistant superintendent—E. E. Van Pool. Secretary—W. I. Rothermel. Assistant secretary—Louis Rider. Treasurer—Mrs. E. F. Hall. Librarian—Charles Penney. Chorister—Archie Crawford. Assistant chorister—E. E. Van Pool. Organist—Miss Mabel Woodman.

CONSTITUTION WAS ACCEPTED

ENGLISH LUTHERAN CHURCH IS FORMED

REV. W. H. FRICK PREACHED

Over Twenty-Five Will Make Up the Membership of St. Peter's Evangelical.

In the presence of a small body of devoted followers of the English speaking Lutheran church the first steps toward perfecting an organization were taken last evening. The meeting was held in the Caledonian rooms at 8:30 o'clock, and was presided over by the Rev. W. K. Frick of the English Lutheran denomination in Milwaukee.

Appropriate Discourse
Rev. Frick's sermon was very appropriately based on the letter of the Apostle Paul to the Thessalonians, who made up, as the speaker, said, the first regularly organized Christian church of which there is any record. He went on to point out the wonderful development which had resulted from the little handful who were gathering together in that European city.

Constitution Adopted
After the address the subject of organization was taken up. The committee which was appointed some weeks ago, submitted a draft of a constitution and by-laws which were designed to meet the needs of a church in this city. The former was read, section by section, and after some discussion was adopted in its entirety. The consideration of the by-laws, and the election of officers was postponed to Friday, January 23.

A Prosperous Body
While the church does not compare in numbers with some of those bodies in this city which have enjoyed a longer period of life, Rev. A. C. Anda, who has acted as pastor of the Mission, is well satisfied with the progress thus far made. It is asserted that the church, which will be known as St. Peter's Evangelical church, will number over twenty-five charter members.

OFFICIATED AT A CHICAGO WEDDING

Rev. J. A. M. Richey Performs Marriage Ceremony for Popular Young Society People.

Rev. J. A. M. Richey, rector of Trinity church, was the officiating clergyman at a large society wedding in Chicago on Friday evening. The groom was his brother-in-law, Dr. William V. Bryant, of Madison, only son of General Edwin E. Bryant, dean of the college of law of the university of Wisconsin. The bride was Miss Franc C. Taylor of Chicago, and the wedding occurred at her home on Jackson boulevard.

The wedding was a large one, six hundred invitations having been issued. The bride is a prominent society girl of Chicago and the groom is a graduate of the University of Wisconsin and Rush Medical college. He has been practicing medicine in Madison for two years and he and his bride will reside in the Capitol City on their return from their wedding trip.

ANNUAL REPORT TO STATE SECRETARY

Statement of Marriages, Births and Deaths in Rock County for the Year 1902.

Register of Deeds O. D. Rowe has prepared for the Secretary of State a statement showing the marriages, births and deaths in Rock county during the year 1902. The marriages for the last year exceed those of 1900 and 1901. In 1900 there were 371 in 1901, 284 and in 1902, 386. More births were recorded in 1901 than in either 1900 or 1902. In 1900 there were 464, in 1901, 611 and in 1902, 587. Nineteen hundred and one also leads in the number of deaths. There were 570, in 1900 there were 507 and last year 527. The marriages show an increase, the births and deaths a decrease over 1901.

BEN HUR COURT GIVES BANQUET

IN CONNECTION WITH INSTALLATION OF OFFICERS.

THE SUPPER ENJOYED BY MANY

After Which the Regular Business Meeting, with Initiation and Installation Was Held.

Members of Ben Hur Court, No. 1, Tribe of Ben Hur enjoyed a particularly pleasant session at East Side Odd Fellows' hall, Thursday evening. It was the occasion of the annual installation of officers and preceding this ceremony a banquet was served for members of the lodge.

The long tables at which the banquet was served were laid in the dining hall and it was a happy company which assembled around them. Nearly every member of the lodge was present and the abundant supper which the ladies had provided was enjoyed with relish. The supper was followed by an hour of informal sociability before the lodge was called to order with Chief W. Z. Winbigger in the chair.

Candidates Initiated
The court degree was conferred on several candidates, the work being exemplified by the drill team. The handsome new robes, which were recently purchased, were used, it being the first time that many of the lodge members had seen them. The report of the scribe, H. D. Murdock showed that during the past six months fourteen new members had been received into the lodge.

REPORTS TRUST BILL TO HOUSE

IT PROVIDES FOR PUBLICITY

Embraces the Recommendations of the President and Attorney General and Aims to Give More Power to the Interstate Commission.

Washington, Jan. 9.—The Judiciary committee of the house has reported a bill for the regulation of the trusts. The bill is a composite affair, the result of long consultation among the members of the committee. It is drawn partly by Representative Powers of Massachusetts, partly by Mr. Overstreet of Indiana, and partly by Mr. Littlefield of Maine, the Republican members of the subcommittee.

It meets in a general way the recommendations of President Roosevelt and Attorney General Knox. It provides for publicity, strengthens existing laws, and puts in the hands of the interstate commerce commission sufficient authority to insure the enforcement of both the Sherman act and the interstate commerce law.

It does not require the exposure of the business affairs of stockholders, as it is not believed by members of the subcommittee that such exposure will be of any particular benefit in the enforcement of the law.

Text of the Bill.

It puts manufacturing corporations, the product of which is sold in more than one state, under the control of the interstate commerce commission. Public service corporations are also brought within the jurisdiction of the interstate commerce commission.

It provides that any corporation engaged in interstate commerce which shall transport or offer to transport property subject to the provisions of the interstate commerce law at any other rate or upon any other than the public terms, or who, by payment of a rebate, or other device, evades such public rate or rates in transportation, or which transports property without prior publication of a tariff in accordance with the interstate commerce law, and any person, firm or corporation which participates in any way in such acts shall be subject to a fine not less than \$1,000 and not exceeding \$20,000.

Provides Large Fines.

Any common carrier or transportation company engaged in interstate commerce which shall knowingly transport any property produced, manufactured or sold in violation of the provisions of the law or of the Sherman anti-trust act shall be subject to a fine of not more than \$5,000, while any officer of such corporations who shall knowingly receive for transportation or aid in transportation of any interdicted property shall be punished by a fine of not less than thirty or more than sixty days.

Every corporation or joint stock company engaged in interstate or foreign commerce shall file annually a return with the interstate commerce commission stating the circumstances of organization and giving information in regard to its constituent companies with full reference to laws under which all reorganizations have taken place and information as to all prior companies in the chain of the reorganization so far as applicable.

SUGGESTS LEGISLATION.

National Board of Trade to Meet in Washington.

Washington, Jan. 9.—The National Board of Trade convention will open in this city Jan. 13. Among resolutions to be considered are those declaring for amendment of the interstate commerce law at the present session of Congress, and favoring anti-scalping legislation, ship subsidies, immediate establishment of a department of commerce, amendment of the banking and currency laws, consular and postal reform legislation, reciprocity, amendment of the national bankruptcy and naturalization laws and prompt action in behalf of the construction of the isthmian canal. Tariff revision and the report of the committee of the board which investigated census returns with reference to agricultural statistics also will be considered.

State Reception.

Washington, Jan. 9.—President and Mrs. Roosevelt gave the most brilliant state reception of the season last night when they entertained the members of the diplomatic corps, including the ambassadors, ministers, secretaries and attaches, with their ladies. The Marine Band played the usual programme of inspiring foreign melodies, beginning with "Hands Across the Sea," as the diplomats began to enter. Owing to the sickness of Herr von Holleben, German ambassador, dean of the diplomatic corps, the Mexican ambassador and Mme. Aspiroz had the head of the line and were the first to greet the President.

Pure Food Bill.

Washington, Jan. 9.—Senator McCumber, chairman of the Senate committee on manufactures, reported from that committee a substitute for the pure food bill which recently passed the House. The substitute strikes out the provision of the bill requiring the Agricultural Department to fix a standard of purity for foods and drugs, and confines itself largely to prohibiting interstate commerce in adulterated or misbranded articles.

Hits at Wealth.

Washington, Jan. 9.—Representative Griffith of Indiana introduced a bill to prohibit the accumulation of wealth. It proposes to condemn as a public nuisance and a public evil any man

UNITED STATES GAINS POWER

German Professor Utters Words of Praise for Roosevelt.

Berlin, Jan. 9.—Prof. Schlemmer of Berlin university in his annual survey of foreign relations says: "The United States in the course of the year have grown mightily in power and influence, chiefly through the brilliant personality at the head of the great republic. Prince Henry's visit brought a livelier consciousness to the common interests of Germany and the people of the United States."

Y. M. C. A. SUSTAINS FIRE LOSS

Three Women Succeed in Escaping From Cleveland Structure.

Cleveland, O., Jan. 9.—The Central building of the Young Men's Christian Association caught fire and was damaged \$40,000. There were in the building Mrs. Walker, the proprietor of the cafe; Bertha Nixon, niece of Mrs. Walker, and Miss Sadie Walker, a daughter. They found the stairway cut off by dense clouds of smoke and rushed to the roof, escaping to an adjoining building.

IS BLIND FROM FACE POWDER

Nurse, While Weeping, Brushes Poisonous Dust Into Her Eyes.

Middlebury, Vt., Jan. 9.—Miss Nellie Sullivan, a nurse, while weeping at the funeral of her grandmother brushed some face powder into her eyes with her handkerchief. A few days later she became blind and went to a hospital. It is stated that the powder had ruined the sight of one eye and there was but little hope of saving the other.

Two Killed in Gas Explosion.

Marshalltown, Ia., Jan. 9.—John Matthews and Charles Bradford, carpenters, were killed in an explosion at the gas plant at Mapleton, Monona county. The explosion wrecked the plant, broke nearly every pane of glass in town, and damaged surrounding buildings.

Implement Men for Reciprocity.

Omaha, Neb., Jan. 9.—The Iowa and Nebraska Implement Dealers' association adopted a resolution urging upon congress the necessity of taking action that will prevent a continuance of unfriendly legislation by foreign countries aimed at American trade and products and recommending an extension of reciprocity trade agreements.

Lost

The Use of Arm. Heart Trouble.

Could Not Eat, Sleep or Walk.

Dr. Miles' Heart Cure Cured Entirely.

"If it hadn't been for Dr. Miles' Remedies I would not be here to write this letter. Two years ago last June I lost the use of my left arm, could not use it and could only move it with the help of my right hand. My heart was so weak I could not sleep nights for smothering spells. I was out of sorts all over and could eat nothing. I grew so weak that I could not walk without staggering like a drunken man and my home doctor said he could do nothing for me. I was in so much pain I was almost wild. I could not take morphine nor opium as they made me worse. So I got to thinking about Dr. Miles' Heart Cure and Nerve and the more I thought about it the more I wanted to try them. I wrote to the Dr. Miles Medical Co. for advice which I followed to the letter. I can say today that I am glad I did as I am a well woman now; can work and can walk two or three miles and not mind it. I can also use my arm again as well as ever. You do not know how thankful I am for those grand medicines Dr. Miles' New Heart Cure and Nerve. I think Dr. Miles' Remedies are the best in the world, and if I should get sick again I should take the same course. The remedies also helped my daughter Vida so wonderfully that I should have written you before to thank you, but I wanted to be sure that the cure was permanent, which I now know to be the case."—Mrs. Frank Loomis, Allen, Mich.

W. H. TRIPP IS HALE AND HEARTY

His Eighty-Two Years Rest Lightly
Upon Him—An Old Politician.

W. H. Tripp of the town of Rock, is one of the oldest if not the oldest straight republican living in Rock county. He is now nearly eighty-two years of age and has lived at his present home in the town of Rock for fifty-two years and has been married for fifty-nine years.

An Old Subscriber
For fifty-three years he has read the Gazette having started taking it in 1849 when he first came to this county. He is hale and hearty and has as close an understanding on the political questions of the day as many a younger man. He scarcely looks his eighty odd years and steps off with as firm a tread as a man twenty-five years his junior.

Old Assemblyman
But four besides himself are now living who were members of the legislature of 1857 that voted for United States senator and Mr. Tripp is looking with great pleasure to being in Madison during this month and witnessing the election of John C. Spooner to succeed himself. He is a great admirer of Senator Spooner and closely follows all that statesman's moves and speeches.

Unique Record
Mr. Tripp holds a unique record of having been elected town chairman in 1856 and 1857 with no opposition against him. He was also one of the directors of the old Central Bank now the First National and has held many other prominent offices in the county both the gift of the people and in a business way.

Original McKinley Man
Mr. Tripp claims to be the original McKinley man and states that a McKinley banner was flying from his flag pole within twelve hours after the Philadelphia convention and that it flew there until he was elected. He is an admirer of Theodore Roosevelt and hopes to be able to vote for him for President in 1904. He has voted the republican ticket since the formation of that party and says that he will never vote another.

CITY NEWS NOTES
Fell Down Cellar: David Brown is quite lame as the result of a bad fall which he took down the cellar stairs at his home yesterday noon. He injured one knee quite badly and is nursing some painful bruises but he received no serious injuries.

Overhauling The Machinery: The machinery for the manual training department of the high school is being overhauled by the pupils. The boys are making a new set of patterns for the pulleys and also patterns for some new machines. The class now numbers seventy-two.

Is Making A Fine Reputation: George Simmons, the member of the high school manual training class is making an enviable reputation for himself as a fancy wood worker. The

manual training exhibit and the gavel presented to the Wisconsin State Teachers' Association brought him before the public. He has a request from a lady at Portage to make her a gavel from valuable wood owned by her, and would also like a dish made. He has numerous other requests for work from people who have admired the things turned out by him. He does all his extra work before and after school hours, he being allowed the use of the rooms and tools.

The officers of Janesville Rebekah Lodge, No. 171, were installed at West Side hall last evening by Deputy Ella Stout, and the following will be those who preside over the destinies of the lodge for the ensuing year: N. G. Katherine McDonald; V. G. Thurza Ryckman; Recording Secretary, Franc Dapp; Financial Secretary, Josephine Hankey; treasurer, Clara Clark; chaplain, Sarah Brinson; I. G. Eva Olin; O. G. Elmer Warner; Conductress, Alma Ashbaugh; Warden, Ethel Baldwin; H. S. N. G. Alice Merrill; L. S. N. G. Emma Trow; R. S. V. G. Flora Warner; L. S. V. G. Carrie Anderson.

REAR-END COLLISION IN BLINDING STORM

Three Are Killed and Fourteen Are Injured in Wreck on Pennsylvania Line at Ada, Ohio.

Ada, O., Jan. 8.—During a blinding snowstorm two trains on the Pennsylvania system collided on the main street of the city. Three persons are dead and fourteen or more injured, one fatally, as the result of the accident.

The dead are: Joseph Steln, Fort Wayne, Ind.; McPool, Ft. Wayne, Ind.; Alonzo Harley, Van Wert, O.

The injured are: W. A. Freeze, Chicago; J. J. Casey, Toledo; Mr. and Mrs. and Miss Duetselman, Van Wert; Peter Tracey, Curtis McElroy, Ada; Andrew Brunner, Fort Wayne, Ind.; M. Geise, Ottawa; Walter Klinger, Ada; W. B. Blackburn, Guy Kingsbury, editor Dunkirk Standard; Benjamin Zoake, Fort Wayne, Ind.; T. J. Burdette, Dayton, O.

The accident was one of the worst that ever occurred on this division of the Pennsylvania system. Train No. 35, west bound for Fort Wayne, had started out of the station, but at the main street crossing was compelled to stop by an accident to the air brakes. A flagman was sent back to notify No. 19, a fast train going in the same direction, which was several minutes late. On account of the snowstorm the engineer on No. 19 was unable to see the signal in time to slacken speed and his engine, running forty miles an hour, crashed into the rear coach of No. 35. The latter train consisted of two coaches, the rear one being a combination baggage and passenger car, with another passenger car in front. Both were telescoped and scarcely a passenger escaped injury of some sort.

ILLINOIS COAL MINES ARE TO CONSOLIDATE

Deal Near Completion for Transfer of Property Said to Involve \$1,000,000.

Springfield, Ill., Jan. 9.—A coal deal whereby the mines of the Taylorville Coal company, the Riverton Coal company, the Starne Coal company, Black Diamond Coal company and Junction Coal Mining company, the last three of Springfield, will be consolidated is near completion. The mines are to be purchased by a New York syndicate, the deal having been made by J. A. Agee of Chicago, president of the Riverton Coal company, and D. D. Shumaway, president of the Taylorville Coal company. The deal involves \$1,000,000. An attorney of one of the mine owners has left for New York to make the transfer of the mines in question.

Another large coal mine deal is also approaching consummation. J. A. Gilmore of Chicago, representing the Crescent Coal company, has secured options on six mines in the Springfield subdistrict. These are the mines of the West End Coal company of Springfield, the two mines of the Chicago-Virgin Coal company at Viridan, the two mines at Carlinville and the mine at Tallula. It is the intention of the Crescent company to secure all the mines along the line of the Chicago & Alton between Bloomington and Carlinville. Over \$1,000,000 is involved.
